

THE DIDSBURY PIONEER

VOLUME 43: NUMBER 47

DIDSBURY, ALBERTA. WEDNESDAY, NOV. 20, 1946

\$2.00 A YEAR: 5¢ A COPY

Bruce T. Parker President of Agricultural Society

The annual meeting of the Didsbury Agricultural Society was held in the office of the Sec.-Treas., C. E. Reiber, on Thursday, November 14th, with the president, Bruce Parker, in the chair.

The financial statement was reviewed and showed the Society to be in excellent financial condition, with all accounts paid.

The following officers were elected for 1947:

President: Bruce T. Parker.
1st Vice Pres.: Thomas Morris.
2nd Vice Pres.: H. E. Klineck.
Sec.-Treas.: C. E. Reiber.
Auditor: Roy McArthur.

Directors: I. L. Klein, Ed Ford; Ed Watkins, R.A. Gulliver, Henry Hansen, T.E. Scott, John Francis, H.D. Halliday, George A. Law, E. G. Ranton, Ivan Weber, C. Westfall, J.G. Shields, J.V. Berscht, C. Leeson, Wm. McFarquhar, D.G. McDonald, W.W. Gillrie, S.A. O'Brien, J. A. Hughes, Glen Fulkerth, Wm. Bruce, Jack Robertson, G. Youngs, H.E. Klineck, E. Charleston, Doris Wilson, H.E. Oke, E.L. Clarke, E.E. Liesemer, J. Worrall, R. E. Gillrie, Kenneth Burns, E.K. Cullen, Trevor Morgan, H.W. Wait, Phil McNeill, E.J. Routh, Walter Fulkerth, John Kershaw, Hugh Roberts, Harvey Stevens, O. Gilmore, Mrs. B.T. Parker, Mrs. E.L. Clarke, Mrs. J. Stevens, Mrs. E. Charleston, Mrs. J. Kershaw.

LONG YEARS AGO

November 16, 1904

Bert Martin, an employee of the Didsbury Sash and Door Factory has his arm badly cut in a power saw and the injured member had to be amputated.

The timber for the bridge across the Dog Pound was unloaded last week and the bridge gang arrived Monday to put up the new structure.

Before closing out his business, W.S. Durrer was advertising photos for 50 cents a dozen.

Another car of help effects was unloaded at Didsbury on Monday.

For the first time this year several youngsters were seen skating on the pond west of town.

J.W. Wacker is drilling a well for Mr. Hunsperger.

Mr. Barrett and Joe Stauffer are out on a deer hunt.

Wm. G. Liesemer has returned from his trip to the east, visiting St. Louis, Chicago and other big cities.

Ducks and geese were seen flying north last week. What does it mean?

WINTER IS HERE

Winter arrived in this part of Alberta on Sunday, when temperatures dropped from 60 degrees above zero Wednesday to below zero Sunday night. Light snow fell Sunday and Monday, and the ground is now covered with about six inches of the wintry mantle.

Monday the weather was below zero all day, and the lowest recording Monday night was about ten below zero.

40% More Food Produced in Canada During War Years

During the war years Canadian farmers produced about 40 per cent more food, even in the face of a reduction of farm manpower of around 400,000. While favourable weather has considerable to do with the increased production, mechanization of agriculture, improved seed and better farming methods were factors of outstanding importance in the increased production.

The population of Canada is about 12½ million. Canadian farmers could readily feed about a population from two to three times that size.

Increased mechanization of farms is probably the most important factor in increased farm production. The increased use of the rubber-tired tractor and the speeding up of the combine have been factors in increased farm production. Today a farmer can handle three times as much land with power machinery as could be handled with the use of horses. If a tractor is put on a 24-hour schedule, the number of men coming into town or Morgan's farm could be the job seven times faster than with animal power.

DRIVE FOR MEMORIAL COMMUNITY CENTRE SHOWING RESULTS

The drive for funds for the Community Centre Fund is now on and members of the Didsbury Branch of the Canadian Legion sponsors of the plan, are now contacting the residents of the district with the hopes of raising \$20,000 for the community auditorium. To date the response for donations has been good and the intensive campaign will continue until the end of the month to give everyone in the district an opportunity of subscribing to the fund.

It is planned to construct the community centre as a living memorial to the young men and women who lost their lives in World War II and everyone in the immediate vicinity who appreciated the sacrifice of our young people overseas so that we might enjoy democracy at home is asked to show this appreciation by a generous donation to the Memorial Community Centre Fund.

Don't wait to be canvassed. If you are willing to donate to this worthy cause, contact any member of the Canadian Legion and make your donation.

The project is organized under the War Charities Act and all donations may be deducted from your income for income tax purposes up to the extent provided by law.

The Memorial Community Centre proposed for Didsbury will consist of an auditorium with a gymnasium, a swimming pool, and curling and skating rinks, and plans are now being made for the erection of the whole project. The Didsbury Lions Club have raised considerable funds for the project, including a swimming pool, while local curlers are starting on a fund to build the new curling rink. Looking to the future, when the Centre has been completed, Didsbury will have one of the finest Community Centres in any town of its size in the Dominion.

Help make it a reality if possible. Donate to the fund now.

HEALTH UNIT NOTES

Rosebud Health Unit wish to remind the parents of the Didsbury school children that it would be advisable to bring their children to the clinic for reinforcing doses of toxoid as soon as possible. Figures show that there are still a large number of cases of these reinforcements. Please do not wait until there is an epidemic in the district.

ENJOYS READING "PIONEER"

The following letter was received from L.H. Barnard of Browning, Saskatchewan.

Dear Editor:—I have enclosed subscription to the Pioneer for 1947. We always enjoy the Pioneer very much as we used to live near Elkton, previous to coming here. We, however, do miss the "News for the West," as it only seems to appear once in a while. We enjoy the Fallen Timber Notes, the correspondent there, we think, is very good and covers all the district, not only one or two special friends as some do. Sorry we do not send in our subscription sooner. It seems so easy to put those things off.

Yours sincerely,
Les. H. Barnard.

BIG GAME HUNTERS FIND JEEP USEFUL

Frank Moon and Tom Pearson, who returned last week from the country west of Didsbury with a moose as proof of their prowess, used the modern means of bush transportation on their hunting trip. They travelled in Frank's Jeep and after bagging their moose they just drove up to the animal, loaded it on and headed back for camp. No need for bother with horses now, say these modern hunters.

KITCHEN SHOWER FOR MRS. ADAM KONSCHUH

A kitchen shower was held at the home of Mrs. Joe Dick on Saturday, November 16th, for Mrs. Adam Konschuh, whose home was recently destroyed by fire.

The guest of honor was presented with a large box decorated in white with red bows, which was filled with many lovely and useful gifts. Mrs. Bob McGaffin was mistress of ceremonies and a contest was held, followed by a delicious lunch.

Friends and neighbors wish to extend their sincerest good wishes to the Konschuh family in their new home.

RANGER MEETING AND SHOWER AT MRS. KIMMEL'S HOME

Thursday night Nov. 14th, the weekly meeting of the 1st Didsbury Rangers was held at the home of Mrs. Dale Kimmel. Prayers were taken by Captain Mrs. R. Ady. Plans for the year were discussed and general items of interest reviewed. New members were welcomed and next week we hope to have some of the girls enrolled. Ranger meetings are held every Monday evening at 7:45 p.m. in the Lions Hall. We would welcome more new members, so girls, if you are interested in the furthering of Girl Guiding in Canada, here is an excellent opportunity. More information may be obtained from the Captain or any of the Rangers.

After the business meeting, the Rangers held a shower party for Miss Erna Fischer who for some time has been lieutenant of the Rangers. The bride-elect was seated in a chair tastefully decorated in pink and white. Gifts were presented by the Captain and Miss Fischer thanked everyone present. A delicious lunch was served and the remainder of the evening was spent singing songs.

The meeting closed with the singing of "Taps."

The power lines leading to The Pioneer Office are not heavy enough to carry the load all along the street and still allow sufficient "juice" to operate our electric net on the type-setting machine after dark. Unlike The Calgary Power Company, they hint and do something to remedy the situation. Didsbury is going to be without a paper this winter, and there will be a lot of dissatisfied subscribers.

COW GETS IT IN THE NECK

The above illustration has been resting in our "mouse" for a number of years, but it has finally come to life to illustrate to disillusioned hunters what they can expect if they go into the bush "half-cocked" and disrespectful of the sportsman's rule of not shooting until you see the "whites of the eyes."

But that rule must have been broken because it has been reported that some careless hunter last week in the Sundre district shot one of Morgan's fat cows in the neck. Unlike a moose, we've heard that a moose without horns is good eating, but if we had the choice of some of the "half-cocked" hunters coming into town or Morgan's farm, we'd be inclined to settle for a roast of the latter.

TO THE VICTOR FOR SPOILS

The above illustration has been resting in our "mouse" for a number of years, but it has finally come to life to illustrate to disillusioned hunters what they can expect if they go into the bush "half-cocked" and disrespectful of the sportsman's rule of not shooting until you see the "whites of the eyes."

But that rule must have been broken because it has been reported that some careless hunter last week in the Sundre district shot one of Morgan's fat cows in the neck. Unlike a moose, we've heard that a moose without horns is good eating, but if we had the choice of some of the "half-cocked" hunters coming into town or Morgan's farm, we'd be inclined to settle for a roast of the latter.

1ST DIDSBURY SCOUT TROOP ORGANIZED HERE LAST WED.

At a well attended meeting held in the Lions Hall on Tuesday evening, November 12, the 1st Didsbury Scout Troop was formed. This troop, sponsored by the Didsbury Branch of the Canadian Legion, will commence activities immediately and regular meetings will be held every Tuesday evening, commencing at 7 p.m., in the Lions Hall.

Officers of the 1st Didsbury Scout Troop were elected as follows: Scoutmaster, Joe Freeman; Secretary, Cyril Brooke; Treasurer, Roy McArthur; Executive Committee: The above officers together with Mrs. Barrett and W.A. Austin, Scoutmaster, George Gerlitz, Assistant Scoutmaster, John Worthington.

Patrol Leaders: Wm. Edward Donald McArthur, Jack Freeman and Vaughn LeGrand.

Assistant Patrol Leaders: Bruce Freeman, Robert Kenneth Sprout, George Goossen.

ERNA FISCHER HONORED BY RESIDENTS OF MELVIN

A bridal shower in honor of Miss Erna Fischer was held at the home of Mrs. Albert Schmiedler on Monday. After a social hour the bride-elect was seated at a table laden with parcels, and with the help of Miss Olga Dupont the gifts were opened. Erna received many lovely and useful gifts.

A dainty lunch was then served and the ladies left for their homes after wishing Erna a long, happy and prosperous married life.

The Melvin Red Cross held a quilt drive at the home of Mr. and Mrs. Roy McNaughton on Wednesday, November 13th. A collection of \$70.80 was given to the Glen Johnson family who recently lost their home by fire.

Melvin Red Cross group met at the home of Mrs. Roy McNaughton on Thursday. A quilt was quilted and final plans were made for the bazaar to be held at the Melvin school on November 29th.

Mr. and Mrs. Ed Vetter and family of Melvin were visitors at the Johnson home on Sunday.

Mr. Herman Wollen of Buford spent the week end at the home of his parents.

DIDSBURY HOSPITAL BIRTHS

Born at the Didsbury Municipal Hospital on Wednesday, November 13th to Mr. and Mrs. Earl St. Clair, a girl.

To Mr. and Mrs. E. Loney of Carstairs on Wednesday, November 13, a girl.

To Mr. and Mrs. E. Brown of Carstairs on Wednesday, November 13, a boy.

To Mr. and Mrs. Ross Youngs, on Monday, November 18, a boy.

WESTCOTT NEWS NOTES

The Lutheran Ladies Aid held their annual sale of work and home baking at the Westcott school last Thursday evening and a good crowd turned out to enjoy the short program which preceded the sale, and also to enjoy the good home made ice cream and the lunch which had been prepared by the ladies.

Westcott district was well represented at Rugby last Friday evening at the Box Social put on by the Rugby W.V. in aid of the Adam Konschuh family. All reported having a fine time in spite of the cold weather.

Four measles cases were reported in this district over the week end, and it looks as if they're definitely making the rounds through the school. The district nurse visited many Monday and gave their instructions about the quarantining, etc. It is sincerely hoped that all will be cleared up soon, especially before Christmas plans in the making.

We wish to extend our good wishes for a speedy recovery to Mrs. Mary Abbott, a patient in the Didsbury hospital.

Old man winter descended on us in all seriousness over the week end and we had a bad case of winter with wind and snow, and many were back to last winter's fun of digging themselves out of many a snow drifts and worrying about frozen radishes.

Mrs. Rand in the Garfield district was hostess at a shower for Mrs. Johnston last Thursday afternoon. Mrs. Johnston, who is well known in the Didsbury district, recently lost all in a fire.

Former Member of Town Council Buried in Calgary

SADIE HAWKINS WEEK AT LOCAL SCHOOL

Last week was "Sadie Hawkins Week" at the Didsbury High School and from Tuesday to Friday midnight the girls were the "spoils" and were honor bound to betow upon the boys the many privileges they enjoy, carrying home their books, twisting them to re-entertainment and paying the shot to the "chow, etc. The Students' Union sponsored "Sadie Hawkins' Week" and the novel event proved quite entertaining if not embarrassing at times.

SHOWER FOR MISS LOLA DEVOLIN AT ADY HOME

On Wednesday evening, November 13, Miss Lola Devolin, bride-elect of this month, was the guest of honor at a shower at the home of Mrs. R. Ady.

During the evening much fun was enjoyed making a bride's book. Later, in a setting of pink and white, and seated in a gaily decorated chair bearing her name, the bride-to-be, assisted by her sister, Marie, untied the many shower gifts, thanking all present, in a few sincere words, for their kindness.

The hostesses, Mrs. Garner and Mrs. Carleton, assisted by Mrs. S. Krueger and Mrs. R. Ady, served lunch.

WESTERDALE NOTES

The November meeting of the Westerdale Willing Workers Club was held at the home of Mrs. J. Cowie on Tuesday last with eight members present.

The meeting opened in the usual manner. Roll call was answered with "Did You Know—"

Final arrangements were made for the chicken supper. The menu was drawn up as follows: Roast chicken, dressing, gravy, mashed potatoes, vegetables, green salad, fresh buns, pie, tea and coffee. The supper will be served cafeteria style, and will take place at the Westerdale Hall on November 22 from 6:30 p.m. to 8:30 p.m. A concert and program will follow the supper.

Four members were appointed to arrange booklets for next year, namely, Mrs. D. Herbert, Mrs. R. Jackson, Mrs. J. Schneider and Mrs. W. Herbert. Mrs. D. Herbert offered her home for the December meeting. This being an exchange of gift meeting members are not to exceed 50 cents for gifts.

It was decided to resume the whist parties on December 3rd.

At the close of the meeting a delightful lunch was served by the hostess.

Mr. and Mrs. Ben Kershaw and Greta journeyed to Calgary last Friday.

Miss Marie Kershaw visited at the home of Mr. and Mrs. Ben Kershaw last week end.

Mr. Wilf Wiley and Mr. Geo. Weisman returned from a hunting trip Monday afternoon with a four point buck.

The Westerdale Willing Workers will hold a chicken supper and program at the Westerdale hall on Friday, November 22nd.

LOCAL NEWS ITEMS

Mrs. E. N. Boettger is expected to arrive in Calgary from Vancouver tonight, and Mr. Boettger went in to the city to meet her. They will again reside in Didsbury.

There is quite an epidemic of measles in the immediate vicinity of Didsbury, according to a report from the local Health Unit.

Laverne Wrightlesworth has purchased a used airplane from War Assets but does not intend to put it in airworthy shape. He will salvage parts from the machine.

The Junior W.A. of Knox United Church will meet Monday evening, November 25, at 8 p.m. sharp at the home of Mrs. M. Wood.

Mrs. Edw. Brimton Jr. and two children returned Friday to Calgary. Mrs. Johnston, who is well known with Mr. and Mrs. E. Brimton.

Funeral services for Frederick Henry Budgen, 73, who died in Calgary on Saturday, November 9, were held from Jacques Funeral Home on Wednesday, November 13th, with Rev. Martin of the Church of the Nazarene officiating. Pallbearers were: C. Snyder, T. Rodler, Joe Gillette, G. Reynolds, F. Tirick and J. Schmidt.

Surviving are his wife, Elsie, a daughter, Mrs. C. Post, Calgary, one son, Welsh Corbett, of Calgary, and three grandchildren.

Fred Budgen was born in Alberta and came to Didsbury in the 1890's, taking a position at the Morley Institute as teacher and blacksmith. In 1906 he was elected about a mile west of Didsbury and later erected the Budgen Smith shop in the town. He was sold out at Carleton Place, Ontario, and then to Victoria, B.C.

After residing at the coast for a few years Mr. and Mrs. Budgen returned to Didsbury, where they resided while the late Mr. Bertsch took a position of teacher of blacksmithing at the Olds School of Agriculture.

During his stay in Didsbury Budgen served on the Town Council and was supervisor of public works.

Owing to his wife's illness, Mr. Budgen moved to Calgary a number of years ago where they have since resided.

Deceased was in apparent good health up until a few hours before his death, which was caused by a blood clot near the heart.

WEDDINGS

BERTSCH-FRENCH

A quiet wedding was solemnized in the Nazarene Church, Calgary on Tuesday, November 12th, when Alberta's youngest daughter, Miss Bertha French, daughter of Mr. and Mrs. G.E. French of Didsbury, became the bride of Walter Herbert, only son of Mrs. E. French, of Calgary. The ceremony was performed by Rev. T.E. Martin officiated at the wedding which included a double ring ceremony.

The bride, wearing a Lohengrin wedding march, the bride entered the church on the arm of her father. She was attired in a floor-length gown of white satin with fully-pointed sleeves and a full-length veil. She carried a spray of red roses. Her only ornament was a single strand of pearls.

The bride's attendant was her cousin, Nancy French of Edmonton, gowned in a blue net over tulle with pink trimmings and who carried a spray of pink carnations.

The groom was supported by his cousin, Reuben Snady of Castor, Alberta. A Fernie Homer and Raymond Snady acted as ushers.

Norma Bertsch, sister of the groom, presided at the piano, and during the signing of the register, Mr. P. Fraser of Calgary sang "Through the Years."

A reception was held later in the banquet room of the Pines Hotel. Mr. and Mrs. Bertsch left by car for Banff and various other points. For travelling the bride chose a costume of Banff blue with dark brown accessories. On their return the happy couple will take up residence near Carbon.

Bill Bast has purchased a new Mercury car from Ken Cassidy.

Harold E. Oke returned Saturday from Edmonton.

The tea and sale of Alberta male goods in the Lions hall last Saturday drew a large crowd and the W. A. of St. Cyprian's church were well satisfied with the undertaking.

On his way back from Calgary last week Len Bertsch ran over a coyote with his car and brought home the animal as proof.

Helpful Suggestions Given On Keeping Farm Machinery Efficient During Idle Periods

Few farm machines are used in Canada more than 20 to 30 days per year, and those which are used over longer periods are most subject to neglect against rust and weathering. With 335 to 345 days out of each 365 in storage, it should be obvious that extra precautions should be taken to prevent deterioration during the idle periods, and thus insure 100 per cent. efficiency of essential equipment during the short active periods, says G. N. Denike, Dominion Experimental Station, Swift Current, Sask., where the study of farm machinery is a specialty.

A definite plan should be laid down in the early fall for "winterizing" all farm equipment. The winterizing program should start as soon as each implement has finished its season's work, while the weather is still warm enough for washing, cleaning and application of rust preventatives, and while it is still early enough to provide time for a thorough job on every piece of equipment.

The worst enemy of all farm machinery is dirt and rust. Winterizing should be preceded by a thorough cleaning of all parts of the machine. Rust and decay thrive best in the hard-to-get-at or neglected parts, where dirt, straw, oil or grime adheres and holds moisture.

The efficiency of winterizing depends upon the thoroughness of the cleaning job which precedes storage. Necessary and desirable repair or replacement items are easily observed and a list made for early ordering at this time. A definite plan of overhaul should be worked out for each machine during the pre-storage cleanup.

Paint should be used freely and frequently on all wood or metal parts exposed to the weather. Bright wearing surfaces should be given a thorough coating of a good rust preventive. Shafts, chains, sprockets and exposed gears should be carefully coated with rust preventative. Enclosed bearings, ball, roller or plain, should be filled with fresh grease to prevent moisture from seeping in during the storage period.

The tractor or stationary engine requires special care before storage. Cleanliness and paint and grease are important, but special attention should be given to the lubrication and cooling systems. All old oil should be drained from the crankcase and replaced with new oil. The cooling system flushed with a cleaner. All drain cocks should be open, or anti-freeze of adequate strength placed in the system before storage. Just before shutting the engine or tractor down for the last time, mix up one quart of kerosene and a good breaking-in type of oil (50 wt. and 60 wt.) rapidly into the engine through the carburetor air intake; shut off the engine as soon as the last of the mixture has been added. Be sure all doors are open for this operation. This will free all valves, rings and internal parts, and keep them coated in good condition to withstand long storage periods.

Rubber tires on all tractors, implements or trailers should be properly inflated and the weight removed by blocking. Paint all tires with a good rubber tire preservative and, where ever possible, remove or tie up the tires in a cool, dry and darkened place. A few hours of care at the right time will add months or years to the trouble-free life of your equipment. Expensive storage is not necessary, but cleanliness and a few precautions are essential.

Life-Saving Packages

Food For Hillmen In Burma Dropped By Royal Air Force

Thousands of hillmen living among the vast jungle-covered mountains of the Northern Frontier of Burma have been fed by aircraft of the R.A.F.

With food stores empty even of seedling rice for planting in the paddy-fields awaiting the monsoon, they looked to the skies for their salvation from famine.

Dakotas and Hurricanes dropped 24,000 tons of rice and 180 tons of salt in forty-one days to the Kachin villages in the hills. Now the paddy-fields are planted and soon the rice will be harvested.

LONDON ZOO PUTS ITS HOUSE IN ORDER

London's world famous zoo in Regent's Park is restoring its depleted cages and repairing much of its war damage. Several collections, which include three young elephants, have arrived recently to replace animals which have died since 1939. Penguins and other southern birds have arrived from the Falkland Islands, many rare animals have come from South America while from South Africa have come Cape penguins, cranes and ostriches. Heavy consignment is expected soon of animals and birds from the Gold Coast. This year's outstanding addition has been a good-sized gift from the Provincial Government of Szechuan in China of a Giant Panda. Her name is Lien Ho which means Union and she is first favorite with child visitors to the Zoo.

Commercial canning began in the United States in 1819.

Not Always Needed

But Ladders In Fraser River Often Give Help To Salmon

Height of water in the Fraser River varies by 50 or 60 feet, according to the season and the climate. If the water is extremely high the velocity is reduced and the returning salmon get through to their spawning bed without much difficulty. Or, if the volume is very low—as happens sometimes—the fish can win against the rapids after resting in the eddies. A salmon can breast a current of eleven miles an hour, but if the speed of the current gets any faster he falls back.

These facts were all taken into consideration when the International Sockeky Commission installed its excellent pair of fish ladders at Hell's Gate. There was consternation in some uniformed quarters recently when a report from the canyon indicated that the ladders were useless, hanging so high as to be out of water. The ladders are not adjustable—they are built of permanent cement and rock and are designed only to help the fish when they need it. The ladders are built of permanent cement and rock and are designed only to help the fish when they need it. The ladders are built of permanent cement and rock and are designed only to help the fish when they need it.

That the fish get through is the one thing that counts. At very high and very low points they don't require ladders; they get along time with their own propellers—Vancouver Sun.

Heart Trouble

Specialist Believes Relief Can Be Found Through Medicine

CHICAGO.—Dr. William D. Stroud, a heart specialist for more than two decades, believes that medicine can aid patients with heart trouble and lead practically normal lives and that some patients can be permitted to smoke and drink. Writing the current issue of the Journal of the American Medical Association, Dr. Stroud, of Philadelphia, says "I feel that the average patient with a heart coronary occlusion can return to a sedentary occupation part time in about three months."

It is my feeling that too many such patients are made total invalids unnecessarily.

Dr. Stroud, a director of the American Heart Association, asserts on smoking and drinking: "Most people who smoke know whether or not they are sensitive to nicotine. I believe it is perfectly safe for him to smoke."

"Many physicians advise patients with hypertension to abstain from any form of heart disease not to drink. For myself I see no reason why patients with these conditions should not drink in moderation."

Number Reduced

Fewer Men Were Left Blind After Second World War

LONDON.—Blinded veterans of the Second Great War number only one-third of those similarly incapacitated during the First Great War. Field Marshal Viscount Montgomery told the annual meeting of the Royal Eye Hospital, of which he is president.

Citing figures, Lord Montgomery said that St. Dunstan's Institute for the Blind cared for only 1,000 throughout the empire by the time the Second Great War ended. Only 500 remained permanently blind after treatment.

Of cases treated at the Royal Eye Hospital—he did not disclose the number—99 per cent. had perfect vision restored. This was "very remarkable" compared with the year 1914 alone when in the heavy fighting around Somme 2,000 were wounded about the eyes. Of those 1,350 lost the sight of at least one eye.

Nothing Like It

Riding With Police Escort Gives Anyone A Real Thrill

The Archbishop of Canterbury, established himself as a victim of discriminating taste when he said it thrilled and delighted him to ride with a police escort straight through all the red lights.

It is well enough to ride in the cab of a locomotive engine. It is fine to ride an elephant in the opening grand march of the circus, depicting the splendor of the Sultan's court, but for the nectar without a dog, the race without a horse, the thrill without a regret, give us a ride with a police escort.—St. Louis Post-Dispatch.

WINDSORS ARRIVE AT DOVER—On their first visit to England together since 1939, the Duke of Windsor and his U.S.-born daughter step ashore at Dover recently.

Bigger Pack

Santa Claus Will Carry More Toys This Year

Santa Claus is going to carry a bigger pack of toys for distribution to children this Christmas—his heaviest load since 1941—say United States toy manufacturers.

And many of the toys that were not available during wartime and last Christmas, such as electric trains, skates, construction sets, bicycles and metal wagons, will be in his big sack. But, toy makers at the merchandise mart said, these articles which vanished during wartime will be back in very limited quantities.

"It will be first come, first served," the manufacturers said, a fair warning to papa that if he wants to play Santa Claus he'd better do his Christmas shopping early.

Some changes in types of toys were noted by manufacturers. Cannons, guns and tanks, popular during the war period, are disappearing from the market. Toy models are holding their own. And the war has left toy makers with various "electronic" devices.

Here are some of the newest items:

A model train with automatic whistle, electric action, and colorless smoke that comes from the engine's stack in realistic puffs.

An all-steel 2-4-1 "skoot-bar," which combines the features of a wagon and a skooter. It will cost around \$14.95 at retail.

NEED DRIED MILK

TORONTO.—Unless more dried skin milk is sent to Great Britain, the present ration of two pints a week for ordinary consumers may have to be cut. Dr. H. E. Mager, chief of the nutrition division of the British ministry of health, said.

Black ink is made from white mushrooms.

BRITISH VIEW OF U.S. ATOM POLICY

Butterworth In The Manchester Daily Dispatch

Summary Of Canada's Food Situation Show There Will Be Plenty Of Things To Eat

(By H. Reginald Hardy in Ottawa Citizen)

CANADIANS will have a plentiful of good things to eat during the next six months, but will go short on a few import items such as rice, oils and fats, according to officials of the Wartime Prices and Trade Board who gave a preview of things to come in the food field. Here is a summary of the situation as food experts see it at the present time.

An exceptionally good catch of various kinds of fish will put nearly all types of canned fish in surplus supply. Although not anything like a recent year for salmon, the quota for domestic use has been increased to 500,000 cases.

Turkeys, although Canada is growing more than ever, will continue to be in short supply in some areas. This is due to the fact that purchasing power is higher than ever and people who formerly could not afford turkeys are now buying them. Chicken will remain in good supply despite the fact Canada has contracted to supply Great Britain with 12,000,000 pounds.

Not only has Canada had bumper crops of nearly all kinds of fruit and vegetables, this season's fine crops of tinned goods, but prospects are that bountiful supplies of fruits and vegetables of all seasons will come to Canada from the United States this winter.

One of the two dark spots on the import horizon will be the lack of rice. Canada is now getting only one-third of her normal supply, from the United States, but this supply will be drastically cut from now on.

Second dark spot on the food picture is the shortage of oils and fats, which will be even more acute this winter. It may be eight or ten months before anything like a normal supply of edible oils for shortening will be available.

At the present time the government is taking a heavy loss on imports of oils and fats in order to keep down the ceiling price. The United States, experts say, is doing a first class job in rehabilitating the coconut oil industry in the Philippines, nothing is coming out of the Dutch East Indies.

Adding to the shortage of fats is the decline in Canadian hog production.

As a result Canadians will have less lard and shortening than they had last winter, but a little more than they had last summer.

Sugar will not be off the ration list, according to the W.P.T.B. for another 15 to 18 months. However, by February or May when the Cuban crop is in sight it may be possible to increase the current ration.

Some items such as dates, raisins, Spanish almonds, sardines, etc. are coming in in increasing supply and will continue to do so.

There is a possibility that late this fall or early in the winter Canadians may have to take a slight cut in their butter ration, although every effort will be made to hold it at six ounces. Milk production, however, has been falling slightly. The recent drop in the price of fluid milk may cut down fluid consumption and make more available for butter and cheese.

Items Of Interest

Drums were used in New England churches before bells became common.

The phrase "seven seas" was used by the ancient Hindus, Chinese, Persians and Romans—and in each case referred to different bodies of water.

Confucius was not only a teacher, but an accomplished musician, statesman and champion archer.

Makers of a new plastic shoe claim it is scuffless and will remain shiny after washing with soap and water.

Waxed paper windows have been devised for chicken houses, in order to admit the maximum amount of ultraviolet light.

A new process dries wood for railroad ties and other uses in six to 14 hours instead of six to 18 months.

By diggings, still visible, it is known that early Indians mined copper on Isle Royale in Lake Superior.

The banana is one of the largest plants on earth not having a woody stem above ground.

WHEAT SUPPLIES UP

WINNIPEG.—Visible supplies of Canadian wheat increased by 6,500,000 bushels to 118,700,000 bushels during the week ended Oct. 11, the board of grain commissioners reported. Visible stocks at the same time last year were 208,800,000 bushels.

A ripe cucumber has been known to burst and shoot seeds as far as 30 feet.

CONSPIRATOR RECEIVES SENTENCE

Fined guilty of conspiracy to provide secret information to Russia, Harold S. Gerson, former employee of the department of munitions and supply, was sentenced by Mr. Justice G. F. McFarland to five years in penitentiary.

The Future Bicycle

New Design On Display At The "Britain Can Make It" Exhibition

The cyclist of the future will be able to freewheel up hill on the United Kingdom designed bicycle now on view at the "Britain Can Make It" Exhibition. This machine, which was specially built for display at the Exhibition, enables the cyclist to tune in to a miniature radio while he pedals, signal his approach by pressing an electric bell button, brake with a twist of the handlebars and operate built-in lights in the mudguard by pulling a switch.

"Built" was one of the operative words in the designing of this streamlined bicycle: it applies to every part of the machine from the instrument panel to the footpad and pump. A Yale type anti-theft lock and concealed parking stand are part of the fittings. The most remarkable feature, however, is the unique combination of pedal and electric power. The machine employs shaft propulsion instead of a chain drive and a battery concealed in the framework gives power to the cyclist going uphill—he can freewheel a thousand yards up a rise in ten gradient. The bicycle is 15% lighter and will be appreciably cheaper than the present day machine. It will not be going into commercial production, however, for several years.

Seven Bluebirds

These seven little bluebirds (one for each day of the week) perch happily on kitchen towels. They make dishwashing sunnier and give a set can be finished quickly. Pattern 7437 has a finished size of 7 1/2 inches, averaging 3 1/2 inches; stitches.

To obtain this pattern send twenty cents in coins (plus postage) to: Household Arts Department, Winnipeg Newspaper Union, 175 McDermott Avenue E., Winnipeg, Man. Be sure to write plainly your Name, Address and Pattern Number.

Oil used in sky writing is made in accordance with a secret, patented formula and a gallon is needed to produce a single letter.

INCOME TAX AND CEILING PRICES

The income tax seems to be a thorn in the side of most small farmers who are now getting on their feet, as well as the smaller business man and employee who has had very low exemptions during the war years. True, the 1947 income tax exemptions will be higher, but the rising cost of living is creeping up rapidly, in fact so fast that the higher exemptions in the income tax field will give the average citizen very little advantage over previous years.

Unless the federal government is prepared to hold the price ceilings, or continue to pay subsidies—which it rightly refuses to do—parliament will have to grant further income tax exemptions if this period of prosperity is to continue.

Canada is probably the only country in the world that has checked inflation and kept prices down to a fair level. Big business seems to favor a discontinuance of the ceiling price, but until the results of the United States' decision to throw off all ceilings can be ascertained, Canada would be well advised to hold prices at present ceiling level.

We in Canada are closer now to so-called parity prices than we will ever be, and if we find that we can't continue to trade favorably with other nations unless we let prices rise to the level of some of these other countries, we would be better off if we lost some of the markets and started in to supply our own citizens with some of the short lines which have been hindering the return of "prosperity with plenty."

WHAT OF THE FUTURE?

Government at its best can only provide the good climate for economic growth—the growth itself depends on efficiency which can only be attained in an atmosphere of co-operation.

With this co-operation by government and people the outlook for 1947 is one of intense demand for goods-creating jobs and prosperity. Profits and wages must be kept reasonable so that prices of goods will always be within the reach of those who need them. The confidence and co-operation that we achieved for victory in the war is needed more than ever for our own victory in peace.

PERSONAL GREETING CARDS AT PIONEER OFFICE

In response to public demand we are handling the famous "Toothills" Personal Greeting Cards, and orders can be placed with us. Delivery made within six days from date of order.—The Didsbury Pioneer, phone 12.

The farmers of Alberta are fully justified in seeking living conditions on the farm, which will at least approach those existing in urban centers today. A contented and prosperous farm population is the surest guarantee of stability, employment and prosperous times in towns and cities.

MOUNTAIN VIEW NOTES

Mrs. John Kohut was taken to the hospital last week suffering from pleurisy. We all wish her a speedy recovery.

Mrs. Dawson spent most of the week in Calgary taking a much needed holiday.

Mr. and Mrs. Chas. Kohut spent a few days in Calgary last week. They also went to Rimby to take Mrs. Kohut's sister home on Saturday evening.

Stewart Tighe left Thursday for Quebec, where he will visit his sister and brother-in-law. He also plans to stop off at Peterboro, Ont. to see his great-grandmother.

Mr. and Mrs. Jake Hendrickson have gone to live at Olds. We wish him luck at his new job.

Mrs. B. Elliott and Mrs. John Bruce spent a day in Calgary last week.

Miss Worrall and Mr. Hunter visited with the Elliotts on Sunday.

Mr. and Mrs. Ed McNeil visited on Sunday with the former's folks. Mr. and Mrs. Phil McNeil.

Mr. Ed Lessemor sold his farm but is undecided just where he wants to settle yet.

HEALTH OUTDOORS

Those who complain that the climate of Canada is not conducive to a fit standard of health, find little support among health experts at Ottawa. Officials in the Department of National Health and Welfare, pointing to Canada's well-known hardiness of human material, declare that such weather as the Dominion offers is excellent for development of a sturdy, disease-resisting stock.

While rain, sun or snow may be hard on such flimsy objects as structures of brick and stone, they are essential to life. As an example, the experts point to the growing things which, when robbed of a fair share of the out-of-doors, become anemic. Likewise, human beings who spend their time indoors, are afraid to venture into the elements and who, coddled themselves, are becoming as ill-fitted to withstand the buffeting winds of fate, mental as well as physical, as they stand up to the blustering day. Officials in the National Physical Fitness division of the Department acclaim the open air as the natural habitat of living things—humans included. They recommend, of course, all proper precautions in inclement weather, including proper clothing and avoidance of strain.

HIGH SCHOOL HOWLERS

Radius is the distance you can get on your radio.

Periphery is what a submarine looks out of when it cannot see where it is going.

A tripod is what seeds grow in when there are three of them.

Oxygen is what you become when you are eighty years old.

Ratons are the movement of objects, such as migrations, vibrations, gyrations, etc.

Little rivers that run into big one are called tribulations.

A marsupial is an inhabitant of Mars.

An orchid is what fruit trees grow in.

RUGBY NOTES

With a fairly large crowd, and lots of boxes to be sold, the "Social" held in the Rugby Hall was quite a success. The sum of \$130 was gathered, including several private donations. We would like to thank very much all of those who so willingly helped with the program and us in so many other ways, not forgetting of course, our genial chairman and auctioneer. Again, thank you everyone.

Famous last words: "This windshield is pretty dirty, but I can still see okay."

ENGAGEMENT ANNOUNCED

Mr. and Mrs. S. C. Wilkins of Didsbury, Alberta, announce the engagement of their youngest daughter, Eva Bingham, to Mr. Lawrence H. Neufeld, son of Mr. and Mrs. A. Neufeld, also of Didsbury. The marriage will take place December 12th at 7 p.m. in the Protestant Church of the Redeemer, Calgary.

ENGAGEMENT ANNOUNCED

The engagement is announced of Dorothy Joyce Hixon of Clearwater, Florida, to Mr. Raymond Hayne, eldest son of Mr. and Mrs. Lloyd Hayne. The marriage will take place on November 23rd.

ENGAGEMENT ANNOUNCED

Mrs. George A. Burns wishes to announce the engagement of Marjorie Eileen, to Mr. G. Carlton Lee-son, the marriage to take place the latter part of November.

CARD OF THANKS

We wish to thank our many friends and neighbors for their kind sympathy and lovely floral tributes at the time of our recent bereavement. Also Mr. W.A. McFarquhar for his prompt and courteous attention and services.

CHAS. BROWN SR.
CHAS. BROWN JR.

CARD OF THANKS

We wish to thank our many friends and neighbors for their love and sympathy extended and for the many floral tributes sent during our recent sad bereavement.

AND SUPPLY**
Phone 149, Didsbury

Canada is gradually being freed from tuberculosis. The victories that have been achieved over this disease has been made possible to a large extent through the sale each year of Christmas Seals.

SNOWBOUND CATTLE IN AUSTRALIA

According to the popular idea, Australia is a land bathed in eternal sunshine, but there are parts of that continent which are covered with snow much of the year. It is the custom of farmers and cattlemen to remove their stocks from these areas before they become snowbound, but sometimes the snow extends beyond the normal limits. Recently the cattlemen had to don skis to rescue some of the stock left behind during the musterings.

One such incident is related by the Australian News. In the Kian-dra district of New South Wales, two men skied 30 miles to find ten head of cattle which had been cut off two months previously during a blizzard. To assist the cattle over 18 miles of deep snowdrifts, a team of ten horses was sent out to break the trail so that the weakened cattle would be able to make the journey.

ALASKA HIGHWAY TO OPEN IN 1947

James Christiansen, chairman of the Alaska Highway Committee of the Edmonton Chamber of Commerce, has announced that the highway will be open to civilian traffic next summer.

Mr. Christiansen, who was addressing the Lions Club, said delegates from Alberta to the recent Senate Tourist Committee in Ottawa were assured that the Alaska Highway "would not be neglected." He stated that the highway would be a big factor in the defence of the continent.

MATCH CAUSES DEATH

Mrs. Emerson Longnecker, of Paris, Mo., noticed one of her roosters flopping about in convulsions. Desiring to put the creature out of his misery, she killed it, performed an autopsy, and here's what it disclosed: The rooster had swallowed a match which, when passing through the pizzard, had been lighted therein by the grit.

UNITED GRAIN GROWERS RECORD PROFITABLE YEAR

Profits of \$300,178.40 for the year were recorded by United Grain Growers Limited after taxes and all charges had been met, including provision of \$175,000 for patronage dividends, R.S. Law of Winnipeg, President of the Company, stated when he presented his annual report at a conference attended by 300 delegates recently held at Calgary. The delegates attending were elected by the locals in Manitoba, Saskatchewan, Alberta and British Columbia and represent the 35,000 member shareholders of the Company.

BEEF, BACON EXPORTS

Meat Board exports of beef to the United Kingdom during the first nine months of 1946 totalled 36 million pounds of bone-in-beef and 20 million pounds of boneless beef. In addition, says the Current Review of Agricultural Conditions in Canada, three million pounds of bone-in-beef were shipped to the Netherlands, under a recent agreement which calls for delivery of eight million pounds carcass basis by the end of 1946. Canned meat exports for the first nine months of 1946 to France, Belgium, and UNRRA, about 50 per cent of which is beef, amounted to 84 million pounds.

Exports of bacon to the United Kingdom totalled 183 million pounds from January 1 to the end of September, 1946. About 3.7 million pounds of frozen pork offal have been shipped to the U.K.

PAY \$40,000 FOR CANADIAN HOLSTEIN

Said to be the highest price ever paid in Canada for a single head of livestock, \$40,000 changed hands recently at the All-Canadian Holstein sale at Oakville, Ont. for a five-month-old bull calf, Glenafon Killarney.

The calf was bought by the Waterloo Country Holstein Breeders' club from J. J. McCague of Alliston, Ont.

Christmas Seals provide funds which make possible a relentless fight against tuberculosis.

DELIVER YOUR GRAIN TO
A.P. ELEVATORS

The Alberta Pacific Grain Co. (1943) Ltd.

FAR TOO MUCH FOR FAR TOO LONG

(By H.G.L. Strange)

The government is withholding from our prairie farmers quite large sums of money for five long years. 160 million bushels of wheat for each of two years are being sold to Britain at \$1.55, basis No. 1 Northern Fort William; but the government is paying our prairie farmers on a basis of \$1.35 only. This means the government is withholding from farmers 20 cents a bushel for five years. 160 million bushels to Britain, however, is not much more than half the wheat that has to be sold to all other countries, and at a price far in excess of \$1.55. The price today for this other so-called "free wheat" is \$2.19 a bushel. This means that on

about one-half of our wheat the government is also withholding from farmers 84 cents a bushel, again for five years. This, it seems to me, is unnecessary. All this money would be far better, for one thing, in the hands of our farmers than in the hands of the Dominion Treasury for five years. In short, it occurs to me, and to many others incidentally, that the government is withholding from our prairie farmers, in cash, far too much for far too long.

Two out of every thousand apparently healthy people in the average community are likely to be suffering from tuberculosis. The best way to find these people is through a chest X-ray. Christmas Seals help provide the money to finance these surveys.

To those who eagerly await their new cars or trucks... here is the

LATEST NEWS ABOUT GENERAL MOTORS DELIVERIES

Everybody from factory to dealer is doing everything that
can be done to speed deliveries to you

Because of the continued and unavoidable shortages of various materials, production of new cars and trucks has remained behind our expectations. As a result, shipments of new cars and trucks to dealers for delivery are still far below the level we and the factory had hoped to attain by this time.

We know that General Motors is doing everything possible to step up its production totals—to ship more and more cars and trucks to us and to its hundreds of other dealers throughout Canada... and we know, too, that we are assured of getting our full proportionate share of the current and future output.

Of this you may be sure: We shall continue to make deliv-

eries of cars and trucks to our customers as fast as we receive them; we regret delays as deeply as you do; we thank you for your friendly patience and understanding; and we promise you a new high motoring experience when you do take delivery of your new General Motors car or truck.

Keep Your Present Car or Truck Running
Meanwhile, may we suggest that you safeguard your transportation by bringing your car or

truck to us for service now and at regular intervals. Let us help you to keep it in good running condition—to maintain its performance, appearance and resale value—until the day when your new General Motors car or truck comes along.

Chevrolet * Oldsmobile * Chevrolet Trucks

ADSHEAD GARAGE

Read our mail:

Calgary Power Co. Ltd.

Dear Sirs:
The shortage of materials for line extension is national. We shall now have to delay your shipment again. We are doing all we can to help send the material we know you urgently need.

A Pole Line Equipment Co.

This kind of mail explains the delays in new service connections--even though we are now and have been making service connections at a more rapid pace than we did before the war. Equipment is even harder to get now than during the war--we have not been able to keep up with our orders for new connections, and now transmission line construction is also being delayed. We are doing all we can--and thank you for your patience.

Radiators For All Makes of Cars, Trucks Tractors and Industrial Engines

GENUINE FACTORY REPLACEMENT OF YOUR ORIGINAL RADIATOR

"DESIRE TO SERVE — PLUS ABILITY"

HOSPITALS IN CITY WILL X-RAY ALL PATIENTS

From 8 to 22 per cent of all general hospital or clinic patients show chest disease on routine admission chest X-ray, according to C. Robert Dickey, general secretary of the Alberta Tuberculosis Association.

This percentage of findings is higher than that of routine blood count, urine analysis and blood serology, which are now generally accepted as routine admission procedures.

Mr. Dickey pointed out that routine chest X-ray would mean frequent and rapid diagnosis of early disease; save time and expense for patient, hospital and staff; raise the quality of diagnostic service rendered; lessen the danger of diagnostic oversight and protect nurses and other staffs from unsuspected sources of infection.

\$3000 has been placed at the disposal of Calgary General and Edmonton Royal Alexandra hospitals, both of which have ordered special equipment to commence the practice. Mr. Dickey said that the Association would consider extending grants to other hospitals in Calgary, Lethbridge, Medicine Hat and other centres as soon as results of the present tests are available, and provided the 1946 Christmas Seal Sale is successful enough to warrant the considerable extra expense involved.

DAIRY INDUSTRY IS NOW BIG CANADIAN BUSINESS

In 1945 the income from dairying in Canada totalled \$263 million as compared with \$148 million in 1939, an increase of \$120 million. In 1945 the dairying income represented 16 per cent of the total farm income of the Dominion.

The high general level of the income of Canadian people resulted in an increase in milk consumption during the war years. In 1945 the daily per capita consumption of milk in the Dominion was .98 pints as compared with .87 in 1939 and .82 in 1930.

In Alberta the per capita consumption in 1945 was 1.17 pints daily, largest of any province in the Dominion. British Columbia was lowest with .72.

Total production of milk in Canada in 1945 was 17,620,047,000 as compared with 15,781,104,000 in 1940.

Alberta's milk production was 1,729,336,000 pounds.

THE QUALITY OF THE BARLEY CROP

"The Crop Testing Plan" has just compiled the returns from the analysis of the barley samples which were collected at country elevators this past year, and from farmers only who were trying definitely to produce malting barley. (Feed barleys were not included in the test). The returns show that 58% classified as "A" which means that the crops represented by these samples were pure enough to be used for seed, 19% classified as "B" which means they contained some admixtures, and 23% classified as "C" and "mixtures of varieties" which means that they were quite bad and unsuitable for seed. These results, however, are an improvement over previous years. In 1943 25% were "mixtures" and in 1944 34% were "mixtures". The "A" classification in 1946 was higher than ever before.

We have just received a return from similar "Crop Testing Plan" work on barley done in England last year, which reveals that 30% of the crops tested there consisted of "mixtures". This indicates that while our malting barley in Canada is for improvement than it is in England, yet there is still considerable room for improvement in Canada, hence for the use of better seed, preferably Registered or Certified.

SAFE MEDICINES

Under the Proprietary or Patent Medicine Act, Canada maintains constant surveillance of the field of remedies, to ensure maximum protection for the purchasing public. The Canadian people annually spend millions of dollars for prepared medicines, which comprise varieties of brands of liniments, lotions, ointments, pills, powders, syrups, tablets, tonics, etc., of both domestic and foreign manufacture.

Canada prohibits false, exaggerated or misleading advertisements in respect of such products, and there are certain diseases of which no medicinal preparation is granted registration. Potent drugs are listed in a schedule of this important Act, and dosages are fixed by a medical board, within reasonable limits of safety.

In connection with this work, the federal authorities maintain a constant check on recommendations for remedies appearing on labels, wrappers, circulars and in literature and newspaper advertisements, as well as in radio announcements. This work is facilitated by the co-operation of the reputable drug manufacturers and by close liaison with press and radio outlets.

Some people slip their brains into neutral and let their tongues blab.

Didsbury Branch: C. F. NICHOLL, Manager

HAVE YOU ANY RUPEES IN YOUR PURSE?

Mrs. Blair has been talking for months about buying a real Indian shawl. But wouldn't she be surprised if she found it priced in rupees! That it isn't, is due in large measure to the services rendered by your bank.

When you buy imported goods in Canadian stores, you pay in Canadian dollars—but the people who made them were paid in Indian rupees, British pounds, French francs...

It is the same in reverse with exports. You may be one of the three out of every eight Canadians who make their living through goods sold abroad. If so, you receive your wages in dollars, but your products are sold in all sorts of foreign currencies.

Arranging the complicated exchange and transfer of foreign funds in such transactions is but one of your bank's many services enabling Canadians to buy and sell abroad.

NEWS OF THE DISTRICT

NOTES FROM THE EAST

Mr. and Mrs. Schumaker together with Mrs. Joe Clarke were Calgary business visitors on Thursday last.

On Wednesday afternoon Mrs. Joe Clarke, Mrs. Katie Schumaker, Mrs. Dennis Jenkins, Misses Myra and Olwin Hughes, Mrs. Earl Wood and M.A. Coates met at the home of Mrs. B.A. Woods to quilt a W. I. quilt. A delicious chicken supper was greatly enjoyed and a pleasant afternoon was spent, thanks to the hostess, Mrs. B.A. Woods. Two gentlemen were also present to enjoy the supper.

Carol Coates, youngest daughter of Mr. and Mrs. B. Coates, is in the Didsbury hospital. Carol was operated on for appendicitis on Thursday afternoon. She is getting along very nicely.

Mr. and Mrs. W.H. Coates wish to thank all the neighbors who responded to the call for help at 1:45 a.m., when their home was on fire Thursday. It was due to quick work that the fire was quenched before it got a good hold. It was a bad night, with a wind that would soon have burned the home.

The Lone Pine W.I. Bazaar and Dance will be held at the Lone Pine Hall on November 29th. Dwayne Forbes and Jean Coates were supper guests with Mr. and Mrs. Earl Wood on Sunday evening.

The Girls' Club met on Saturday, Nov. 16 at the Juillard school. The general organizer was present, but only four girls were in attendance and this was not enough to start a club. Mrs. Harold Sheils, the leader, wishes to invite the girls to meet at her home next Saturday, Nov. 23. All girls who are interested are cordially invited to attend.

Mr. Fred Metz, Mrs. Dowell and Evelyn were business visitors in Olds on Saturday last.

Mr. Bruce Sheils returned from his hunting trip with a deer.

Mr. Watt, supervisor of the Juillard school, has resigned his position. Mr. Watt expects to take treatment for his eyes.

(Too late for last week)

Friends and neighbors of the Juillard district and the members of the Lone Pine W.I. wish to extend their sympathy to Mr. Cippierley and his family in their recent sad bereavement.

Mrs. B. Sheils and family spent the week end visiting friends and relations in Calgary.

Mrs. Mason went to Crossfield for the week end and holiday.

Mr. and Mrs. Harold Sheils and son returned from Llanfne on Thursday evening.

Mr. and Mrs. S. Brander returned home from a visit with Mrs. Brander's parents.

Mrs. B. Wood, Mrs. Joe Clarke, Mrs. Rathburn, Mrs. K. Schumaker, Mrs. Chris Ehret, Mrs. B. Sheils and Mrs. E. Wood gathered at the home of Mrs. B. Coates to put a very lovely quilt together, which is to be used in the coming bazaar. A pleasant afternoon was enjoyed by all.

Mr. and Mrs. Roy Milne were visitors on Wednesday evening with Mr. and Mrs. Coates.

The stomach 'flu is making its rounds in the district. The people who have had these attacks report a great deal of pain while it lasts.

NOTES FROM THE WEST

The Elkonit Willing Workers met at the home of Mrs. H. Barnard on Wednesday last, and despite a very small attendance, a quilt was tied for a burned out family and it was planned to do another one next week (the day to be set) for another family who lost their home by fire.

The next meeting will be at the home of Mrs. R. Befus on Wednesday, December 11. I would like, as president of the Rugby W.I., to thank all those who helped in any way to make the box social held in the Rugby Hall last Friday evening, such a great success.

Best wishes to Mrs. Albert Krebs for a speedy recovery. Mrs. Krebs underwent a major operation in the Didsbury hospital last Friday.

Mr. and Mrs. A.L. Hogg are Calgary visitors this week.

BERGEN NEW NOTES

Leonard Meckelborg and family, and Fred Thomasson and wife were Calgary visitors for a couple of days.

Mrs. Blanche Francis and her sister, Miss Edna Winsch, held an all day service at the Bergen Church on Wednesday. Visitors were present from Sundre, May City and Didsbury. Those from Didsbury were District Superintendent A. Frey, Ed Baily, Willard Swalm, Jim MacConicker, and the Misses Evelyn Morse, Gladys Quantz and Florence Reist.

John Haug tottered out west and killed his moose, while some of the feet footers have not seen anything.

Toby Shartner and the Baerg brothers are at the mill site on Niche creek. The first thing they did was to attach the "cat" to a full grown road grader and maintain the road.

Mr. Jake Glaum was in the valley and gave my house the "once-over." He did not have a great deal to say. Perhaps he was disappointed.

Bill Gamble and Bob Payne are hunting around Hainer's ridge. They may find a bear or a cougar if there comes a little snow.

Wally Admussen and Wilbert McCormick are cutting logs on the north west of 28-31-6-5. Just so long as the yodn't cook too much macaroni or start a fire free everything will be jake.

Mr. Boettger of Sundre is sawing lumber for Trygve Haug on the S. E. of 5-32-5-5.

Paul Toews of Sunnyslope and Claude Toews of Crooked Creek, Claude Urreth and Herman Isaacs of Manitoba, were visiting the Baerg-Shartner mill this week.

BURNSIDE NEW NOTES

Quite a few residents are complaining of being under the weather from the flu.

Slumberers were disturbed about 2 a.m. Friday morning when a "general alarm" was sounded over the phone, the occasion being a fire at the W. Coates residence. Fortunately it was only a minor affair, being discovered in time and easily brought under control, but it might have been far more serious if it had been left undiscovered, as there was quite a high wind at the time. Many cars turned out, coming from all parts of the compass and all filled with willing hands.

Arnold McCulloch spent the week end holidaying with his parents.

Roy Dowell informs us that he is taking over the management of his father's farm at a very lucrative salary.

Mrs. Grenville McCaig is spending a vacation with her parents, Mr. and Mrs. Boettger of Olds.

Lewis Sprague, late of Burnside and who has held a position as assistant manager of Woolworth's store at Regina, has been transferred to the Winnipeg establishment. He would be glad to see any of his old neighbors if they are ever in that city.

Mary Persinger is visiting at the home of her sister, Mrs. Ivor Weber.

Grain hauling is almost at a standstill so Ivor Weber has forsaken the golden grain for "black diamonds" and in spite of the sub-zero weather, the snow and the wind he left early in the a.m. for the coal mines.

WORLD HAPPENINGS
BRIEFLY TOLD

Alfred, Bristol Zoo's gorilla, got an extra head of lettuce as a treat on his 18th birthday.

Contributions totalling £78,000 (\$312,000) have been received from all over the world to restore St. Paul's Cathedral.

Longest submarine telephone cable between Britain and Europe has been laid to Germany since the end of the war. It runs 290 nautical miles.

A special planning mission from Britain will draw up blueprints for new towns in war-devastated north Britain, Britain's youngest colony.

A statue of General Louis Botha South Africa's first Prime Minister, was unveiled at Capetown recently by his daughter, Mrs. Helen de Wail.

Machinery from the suburban aircraft factory near Mannheim in southwestern Germany is being sent to Russia as reparations, it was announced.

Butchers in Britain may soon tag professional letters onto their names. An Institute of Meat has been set up with Fellows, Members and Associates.

Princess Elizabeth, an expert hand with a rifle, recently stalked and shot a 12-point stag in the course of the Scottish Highland game of the brother-in-law of the Queen.

The United Nations announced that members have thus far contributed \$18,695,745.00 to the working capital fund of the UN, representing 71.7 per cent of the total assessment of \$24,960,500.

Worth Much More

Although Professor Plaves Value Of Good Farm Wife At \$60,000

The surmise of the atomic age has not obliterated sheer stark courage. George A. Plaves, Professor of Agricultural Economics at the University of Minnesota, has the backbone fortitude that enables a David to face a fearsome adversary. He has calculated that a farmer's wife, if a good one, is worth \$60,000. In the course of his work, Professor Plaves asked farm account keepers to tell him how much their wives co-operated in running their farms. It was revealed that those who said the "co-operation of the wife was the keynote" made an average of \$2,760 a year more than the group that reported their wives "did not co-operate extensively." Thus, if a farmer had an investment that was bringing him \$2,760 at 4 per cent, he'd need \$60,000. Therefore, if there's anything in logic, a farm wife is worth that sum. It seems to us that this is a conservative figure. Without going into the question of how one would determine the value of city and suburban wives, \$2,760 a year is a modest sum for a lady who runs a house, takes care of children, looks after the chickens, beats the milk and bottle-feeding origins lamb, helps in the garden, makes pie enough so a man can have a piece for breakfast, takes beans every Saturday, and is willing to make home-made biscuits with reasonable frequency. Add to this the fact that she understands that a man wants fried potatoes for supper five nights a week, and the professor's arithmetical conclusion is far too low. We would make it a flat \$100,000, without quibbling—New York Times.

Whitewash Is Sanitary

Should Be Applied To All Winter Quarters Of Farm Animals

Soon the farm animals and the poultry will have to go into winter quarters. If the buildings are clean and sanitary the livestock can be more easily kept in good health and with good health they will work better or produce more.

It is not a big job to put the buildings in a sanitary condition; whitewashing will do. The surface to be whitewashed should be free from dirt or grease. Just before applying the whitewash dampen the surface so that the wash will not set too quickly. If a sprayer is used, in preference to a brush, be sure to strain the whitewash through two or three layers of cheesecloth. A good disinfectant whitewash can be made by adding one or two ounces of carbolic acid to each gallon of whitewash.

Good recipes on how to mix whitewash of different kinds may be obtained by writing to Dominion Department of Agriculture, Ottawa.

These recipes include ordinary whitewash, interior whitewash, exterior weatherproof whitewash, simple cold water paint, weatherproof cold water paint, and washable cold water paint.

A WONDERFUL GIFT

Prime Minister Shouts of South Africa presented Britain cash gifts of more than £1,000,000 (\$4,000,000) as a "national tribute" from the South African people. In a ceremony at 10 Downing street, Prime Minister Attlee said the gifts were "a wonderful symbol" which demonstrated "the spirit in which we must go forward to a new and peaceful era."

El Azhar at Cairo is the oldest university in the world, founded in 927 A.D.

IT'S DIFFERENT—SERVED WITH STUFFING—Your meals will never be victims of monotony if you remember to serve one new dish each day, or to serve an old standby in a brand new way. For instance, stuffings and sauces can add interesting new slants to chops and other common meat dishes. Try stuffing pork chops next time you lay them and serve them with fried apple rings for a delicious and timely meat variation. The stuffing adds extra flavor and glamorizes one of the simplest of meat cuts. Stuffed chops make a good company dish or Sunday dinner entrée—and you'll be pleased to learn how little fussing is required in the making.

Baked Chops With Bran Stuffing

4 double thick chops, pork
1 egg
1 tablespoon water
3 cups corn flakes
3 tablespoons fat
Salt and pepper
1 recipe Bran Stuffing
Sift chops through the middle to form a pocket. Season inside with salt and pepper. Fill with stuffing and fasten opening with skewers or sew together with coarse string. Beat egg slightly and mix with water; roll corn flakes into fine crumbs. Dip chops in egg then in crumbs; repeat. Sprinkle with salt and pepper and broil on both sides in hot fat. Cover and bake in moderate oven (350 deg. F.) about 45 minutes. Garnish with apple slices which have been sautéed in hot fat. Yield: 4 servings.

Bran Stuffing

3 cups fine soft bread crumbs
1 cup bran
1 tablespoon minced onion
1/2 cup milk or stock
1/2 teaspoon salt
1/2 teaspoon poultry seasoning
1/2 teaspoon pepper
Combine ingredients; mix lightly.

Try For Walker Cup

Amateur Golfers To Compete With Britain Next Year For Trophy

NEW YORK—Eight top American amateur golfers are going to Britain next year in an attempt to bring back the United States golf association international trophy—better known as the Walker Cup. This was disclosed by the U.S.A.G.A. which announced that the international matches between amateur teams of Britain and the United States would be resumed at St. Andrews, Scotland, May 16 and 17, 1947. The trophy has remained in Britain since 1928, when the British team won its first victory in the series, defeating the Americans at St. Andrews, seven matches to four, with one halved.

War broke out in Europe before the teams could get together for their next meeting in the series, scheduled at St. Paul, Minn., in 1940.

So Walker Cup matches have been held since.

The custom has been to alternate the matches between Britain and the United States and since the first three meetings to hold them every second year.

Helps On Up-Grade

New Bicycle Designed In Britain Has Motor That Stores Energy

The latest design of a bicycle in Britain has a radio and a motor that stores energy going downhill and releases it on up-grades. The cyclist's joy in swooping down a steep incline is always slightly marred by the unfortunate tendency of roads to provide a reverse slope immediately. He can hit the brakes, and his thought, as he turns the giddy wheel around, revolves the sad vicissitude of things.

Now, however, he can at least take comfort in looking forward to the time when he will free-wheel uphill to the sound of music—a vision he could hitherto only associate with the ghidder of dreams.

Of course, the design may not please everyone. For, in the future, when members of British cycling clubs gather in their hundreds for a rally, what a stirring clamor will herald the approach—especially if they are not so tuned to the same program—Christian Science Monitor.

A MEMORY SYSTEM

Forget each kindness that you do
As soon as you have done it;
Forget the praise that falls to you
Before you can repeat it;
Remember the slander that you hear
Before you can repeat it;
Forget each slight, each spite, each scorn
Wherever you may meet it.

Remember every kindness done
To you, whatever its measure;
Remember praise by others won,
And pleasure on all pleasant ground;
Remember every promise made
And keep it to the letter;
Remember those who lend you aid,
And be a grateful debtor.

June became popular as a wedding month because it gets its name from Juno, the faithful wife of Jupiter and the goddess of marriage.

Origin Of Name

Great Slave Lake Was Called After Tribe Of Indians

Great Slave Lake, a mystifying title for a body of water bigger than Lake Erie and in a land so free from taint of slavery, was named, it is said, for a tribe of Indians called Slave, which once roamed in that region. Yellowknife has more point, for it also is named after an Indian tribe, who in turn got their name from carrying yellow knives made from copper of the Coppermine river country to the north of Great Slave lake.

At temperatures near absolute zero most metals completely lose their resistance to flow of electrical current.

LITTLE SILVER MINE

United States WAA Discovered Desalting Kit Bags Were Valuable

Discovery of what amounted to a little silver mine in war surplus was reported by the United States War Assets Administration.

Milton Hammer, WAA official, said the agency some time ago became suspicious of purchaser interest in surplus desalting kit, used to make sea water drinkable.

Thereupon he had the kits assayed by the Bureau of Standards and found that five ounces of silver—worth several dollars—could be extracted from each kit. They had sold for as little as five cents each.

Hammer related the "silver rush" story to the House surplus property committee.

Prospective purchasers, he said, proceeded in their negotiations with WAA for thousands of the kits on a theory that the agency did not know the silver could be removed.

Not one prospective purchaser told the agency "there is silver in them there kits," he said. One purchaser said he wanted the kits because of the pretty little bags they were put up in.

Immediately upon the report from the Bureau of Standards, Hammer said, he froze the 235,000 kits the surplus agency still had on hand.

Now, he said, the WAA has offered the kits to the highest bidder, with a bottom price of \$3.75 each. He expressed the opinion that the government will get at least \$4 for each kit. They cost the government \$29 each. They are being sold on the basis of their silver content.

Extra Precautions

Have To Be Taken To Keep Penicillin Free From Bacteria

Now that penicillin can be obtained by a hospital or by any doctor qualified to prescribe it for his patients, the most rigorous precautions are taken to keep it without blemish.

Penicillin, which destroys various bacteria which are harmful to man, but its own enemies among them. Therefore, to keep them out of action, the chambers where the penicillin is at last made ready have glass walls and ceilings, and floors where the bacteria cannot find a chance to hide in. All who enter the chambers wear sterilized shoes, clothing, masks and gloves. Sterile air is pumped in and kept at slight pressure, so that bacteria rarely get in with the workers, and ultra-violet rays await them if they do.

Soap-making on an industrial scale believed to have originated in Italy at the time of the Roman Empire.

BASEBALL TO ANTIQUES—Second annual Brooklyn Antique Fair is a salute to Brooklyn, which recently celebrated its 300th birthday. Prize attraction at the show are these three French fans dating back to early 1800s. An estimated 50,000 antiques are being displayed.

Return To Bikini

Says Natives Think Of The Island As A Gold Mine

It is quite probable that the natives of Bikini who moved off the island for the underwater atomic bomb test will return there since Bikini is to them a gold mine, Air Vice-Marshal E. W. Stedman, who was present at both the Bikini tests, told a gathering in Ottawa.

Asked if, as it turned out, the decision to move the inhabitants of Bikini off the island for the test had been wise, the speaker agreed that it had. For one thing he said, the shower of water which fell on the island after the underwater blast was heavy, and for another thing a great deal of radioactive water had been washed over the reef and would have been unsafe for anyone living there.

The deepest diamond mine in the world is the Kimberly mine in South Africa, extending 3,600 feet.

MORE FOR EDUCATION

The Moscow radio said that the expenditure for education in the new Russian budget for the fiscal year 1946-47 would be 40,160,000,000 rubles (\$8,032,000,000), an increase of 13,792,000,000 rubles (\$2,758,000,000) over the preceding year.

Roll your own Macdonald's FINE CUT

Border Rules Eased

Canadian Citizens May Enter U.S.
Up To Six Months Without
Passports

WASHINGTON. — Attorney-General Tom Clark announced that Canadian citizens may enter the United States for visits up to six months' duration without passports, visas or other documents.

The new regulations are the result of negotiations between Canada and the United States which have been carried on intermittently for some months.

Mr. Clark said the new procedure "will enable Canadian citizens to enter the United States under the same conditions as American citizens are permitted to enter Canada."

Under wartime travel restrictions Canadian citizens were admitted for up to 29 days without being registered and fingerprinted under the alien registration act if they held proper travel documents.

Fashions

By ANNE ADAMS
Pretty And Petite

You'll be proud of your little girl in this dress. It's pretty as can be. Pattern 4868 includes her with y scallops and six, adjustable buttons that she can manage easily.

This pattern, easy to use, simple to sew, is made for fit. Includes complete illustrated instructions.

Pattern 4868 comes in sizes 2, 4, 6, 8 and 10. Size 6 frock takes 1 1/2 yards 25-inch fabric.

Send twenty cents (accepted) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number, and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McEwen Ave., Winnipeg, Man.

THE ONLY WAY

You can get along with women if you let them think they are having their own way. But the only way to do that is to let them have it says the Quebec Chronicle-Telegraph.

OUR COMPLETE SHORT STORY— Too Cute To Know

By BETTY BANTER

Copyright
Whelan Newspaper Syndicate

LINDA's feet scarcely touched the ground as she dashed from the street car through the main entrance of McGonagles', the city's "Largest and Smartest Store". All salesgirls were expected to be at their respective counters by nine-thirty sharp, and the store itself seemed to develop a thousand eyes and a frightening frown if she were just one minute late. This morning nothing seemed to go right. Mrs. Jordan, her landlady, who had been calling her at seven-thirty ever since Linda's alarm clock broke and had to be taken to the jewellers, overslept and it was only by chance that the sharp honk of a car passing by awakened her. The girl at the corner luncheon seemed more impatient than usual. She pointed the coffee with the leisurely air of a dowager at a tea table and seemed to dare Linda with her eyes to say anything as she paused and made a few bright remarks to a young sailor before placing the steaming cup in front of her impatient customer.

At nine thirty-two Linda was at her counter of children's ready-to-wear giving her short feather curls a few reassuring pats. Her face lighted up with the brightest of smiles as she saw a tall young man, smilingly dressed in grey, approaching her counter.

"Good afternoon, Miss Morton, and may we have this counter looking a bit neater today," remarked the young man coming in, ignoring the welcoming smile of the salesgirl.

"Of course, Mr. Dodge. I'm very sorry I was late. Shall I rearrange this display?"

"That won't be necessary. Just remember that we must be punctual if we are to maintain the efficiency of this department."

Linda watched the departing figure of Mr. Dodge. He had been the floor manager of the children's ready-to-wear for two months, discharging his duties smartly on the lips of his coat and he carried himself with the air of a person who knew what he wanted. And then she regarded the counter, the display, and the cares of the store and thought of Chris. Chris with his funny smile and the way he would think of any excuse to leave her. She didn't mind hurried breakfasts, slow streetcars, and tedious days at the store. If Chris were waiting for her at the Copper Kettle, their favorite meeting and eating place, as he had been ever since well, ever since anything had started to be important, everything would be all right.

For six weeks the Copper Kettle had been their secret meeting place, and each evening was something to look forward to. Everything they did was special. Linda liked best of all their walks through the park and climbing that highest hill by the river in the evening, and looking down on the city with its hundreds of lights shining carefully and temptingly below.

Chris had only recently been released from the army. New Guinea, the Solomons, and Lae were at last becoming a distant memory. Sometimes, he told Linda, he wondered if he had actually experienced those frightening days and nights when with some of the men in his company they would place bets as to how many would leave the islands alive. Well, he had left Lae alive, and on a stretcher. With shrapnel wounds in his arm and a broken leg he returned to the States, first to the American General in San Francisco, and then near home where he spent many months in an army hospital.

The long weeks with his leg in traction gave him plenty of time to think. Time to make plans for the future. At 27 years he still had a lifetime before him and he didn't intend to waste the valuable lessons the army had taught him.

Linda could still hear Chris saying, "You can't learn a business by starting at the top entered the army as a buck private and I intend to do the same in business. The officers that carried the responsibility of their most easily were those who knew the life of an enlisted man by real experience. Dad wants me to be his assistant. Well, I won't do it. And what's more, I'll not even be his assistant. As Old J. C.'s son, I'll be an independent nonentity until I can prove my own value—such as it may be."

Linda agreed with him implicitly. Though she told herself that she probably would agree with him in the end, the best way to become vice-president of the United States was by swimming Lake Superior. Not that Linda Morton wasn't a natural swimmer. It was just that these last few weeks with Chris made anything seem possible.

"Good-bye, Linda," said Mr. Dodge. "Was he mad? Don't you care, Linda? You're our best salesgirl and he knows it." Millie broke into Linda's daydream and brought her back to the children's ready-to-wear. McGonagles' incorporated.

"It was nothing," Linda reassured

"Why Didn't Do This Before!"

If your nose ever fills up with stuffy trans-nasal congestion is relieved, breathing is easier. Vapo-nol works right where trouble is to relieve distress of head colds. Try it! Works fine! You'll like it!

VICKS VAPOR-NOL

FRENCH JUMENT DOLLS—Jane Delmar shows off three of the French "Jument" dolls on display. The dolls date back to 1880. Models of ships which plied the harbors of Brooklyn and Long Island, early American furniture and silversware also are on display.

her plump little friend and co-worker. "Just a few suggestions, I'll really get a calling-down if I'm late again."

Linda took care of a customer who came to the counter, and exchanged the sweater she returned for a different size. The day dragged by as it always did when she was going to meet Chris—each hour a week, with the usual 15 minutes for coffee and Millie's commentaries on Life at McGonagles' which today were generally favored with Mr. Dodge.

"Honestly, Linda," Millie chattered on. "How can you put up with it? He's nice enough to the rest of us girls but with you—He either ignores you completely or else criticizes your work. Maybe you should warn up to him a little. Maybe he thinks you're too cute to know."

"Thanks, Millie," laughed Linda. "Perhaps I should change my tactics, but for some reason I just don't care. My thoughts begin and end with Chris. You know that. It's silly I know. But I want to get over it."

The five-thirty bell rang at last. The salesgirls quickly covered their merchandise and ran for their coats. That is, all the girls except Linda. Linda checked her makeup meticulously, placed her little navy hat just so, and went down the escalator and out of the store.

"So I'm too cute to know. A fine thing," she mused as she strolled along.

Her heart beat a little faster and her cheeks were a burning pink as she walked into the Copper Kettle to her waiting Chris.

"Hello, Miss Morton, must we be late again?" said a grinning J. Christopher Dodge, Jr. "For this last piece of inefficiency I request that you turn in your resignation and devote your entire time to being Mrs. J. C. Dodge, Jr. Besides, my sweet, I'm afraid your little game couldn't last much longer. The management would distinctly frown upon my taking you in my arms every time you came in late. Am I right?"

Though the answer wasn't exactly audible as he took her in his arms, there was no question to Chris, or to the friendly waiter standing nearby that Linda agreed with her boss and liked it.

RULING ON PARCELS

Britons in future will be allowed to receive an unlimited number of gift parcels from abroad without an import license, provided the weight of each parcel does not exceed 22 pounds, it was announced in the British House of Commons. The new ruling applies to parcels sent by air and parcels sent by sea.

WATERBURY'S

CANADIAN AUTOS

Have Appeared On The New Zealand Market

AUCKLAND, N.Z.—The first post-war Canadian automobiles have only recently appeared on the New Zealand market, almost a year later than those from Britain. Cars from the United States still have not started to arrive.

Canadian cars which have so far arrived are of all makes and are assembled at the firm's works in New Zealand. Before the end of the year fairly large supplies of several makes are expected however.

Standard model Canadian cars available are selling at about \$2,250. This is higher than the price for popular types of small English cars of eight and 10 horsepower which sell at about \$1,600 to \$1,900, but compares favorably with the larger English cars.

Next to the United States and Canada there were more cars imported in New Zealand than in any other country before the war. Although its population is still below 1,750,000, dealers estimate that there are about 100,000 cars in New Zealand, but about 100,000 cars in the Dominion if they could be supplied.

In 1938, the last full importing year, Canada supplied New Zealand with 7,297 un assembled and 29 assembled cars. This was well behind the 17,000 cars imported from Britain, but ahead of the 2,600 from the United States.

Dress For Weather

Wearing Proper Clothing Is One Way To Prevent Colds

Before that No. 1 health menace—the common cold—gets you, begin your conquering strategy by starting out for the day dressed for the weather. Becoming either chilled or overheated in guess-they'll-do clothes makes you a push-over for the sniffles.

Best way to cope with weather that blows hot and cold is to dress in clothes that can be shed or added to, as the need arises.

Give a glum day the benefit of the doubt by carrying along your robe, rubber shoe, guaiac for shoes stuffed into the pocket of a coat or bag are good health insurance to take off against the possible hazards of wet feet, which are high on the list of suspects as the cause of colds.

Begin right now to lay in a reserve of good health by eating more protective foods, get enough sleep, and plan to get some exercise every day.

SELECTED RECIPES

GOLDEN CREAM CHOCOLATE CAKE (2 EGGS)

2 cups sifted Swiss Dutch cake flour
2 teaspoons Calumet baking powder
1/2 teaspoon soda
1/2 teaspoon salt
1/2 cup butter or other shortening
1/2 cup sugar
2 eggs unwhipped
3 squares Baker's unsweetened chocolate, melted
1 cup milk
1 teaspoon vanilla

Sift flour, soda, measure, add baking powder, salt, and sift together three times. Cream shortening, add sugar gradually, and cream together until light and fluffy.

Add eggs, one at a time, beating thoroughly after each. Then add chocolate, beat again. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth.

Add vanilla. Bake in two greased 9-inch layer pans in moderate oven (350 deg. F.) 30 minutes. Spread Cream Filling between layers and chocolate frosting over cake.

(c) You may substitute corn syrup or honey for half of sugar. Use 3/4 cup of each; decrease milk to 1/2 cup.

GRAPE-NUTS PUFF PUDDING

6 tablespoons butter
1/2 teaspoon grated lemon rind
1/2 cup sugar, or use honey
3 egg yolks, well beaten
1 cup lemon juice
6 tablespoons Grape-Nuts
1/2 cups milk
3 egg whites, stiffly beaten

Cream together butter and lemon rind; add sugar gradually and cream well. Add egg yolks, beating thoroughly. Then add lemon juice.

Add flour, Grape-Nuts, and milk and mix well. Gently fold in egg whites.

Turn into greased baking dish. Pour in half of hot water, and bake in slow oven (325 deg. F.) 1 hour. Serve warm or cold, plain or with cream. Serves 6.

SHORT N.A.M.E.S.

"Where the Itt, the Mite and the Eddie come in a hot lot," goes an English paper on walking, one pleasure, at least, that peace has restored to the life of walkers. Itt, the Mite and the Eddie, the spirit and crisp of tumbling water. Short and quick, like the streams themselves, are the old British names. Take, for example, the name of the Dart. How different from the ample names of North America, the long and rolling Athabasca, Mississippi, Monongahela.

The first recorded abdication of a sovereign was Sylla, the Roman dictator, in 79 B.C.

The Quality Tea "S.T.A.M." ORANGE PEKOE

SMILE AWHILE

Mrs. Snagg: "Did I understand you to say Mrs. Perkins is interested in business?"

Mrs. Bitters: "Yes."

"What business is she interested in?"

"Everybody's."

"When your papa was courting me he always kissed me on the brow."

"Harold usually kisses me on the steps," replied Evelyn, absent-mindedly.

"I think it's disgusting that some comedians should earn twice as much as Cabaret Mothers."

"Oh, I don't know. After all, taking them as a whole, they are funnier."

The minister was asking one of his flock why he had not attended church lately.

"Well, you see, sir," said the man, "I'm troubled with a hump on my foot."

"Strange," said the parson, "that a hump should impede the pilgrim's progress."

Said Mr. Holman: "A baby's troublemaker, that's true; but remember the hand that rocks the cradle rules the world."

Replied his wife: "Well, then, suppose you assume world dominion for the evening while I go to the cinema."

Mistress: "I am sorry you are leaving us, Jane. But, of course, you are going to better yourself."

Maid: "Oh, no, Madam. I am going to be married."

Little Joan knew that her aunt was anxious at not having heard from her soldier sweetheart and offered to include him in her prayers.

"Thank you, darling," said aunt, "that will be nice."

"God bless me and make me a good girl," said little Joan, "and send Auntie's soldier home safe and single."

The village milkman bought a horse for the morning milk. It was not exactly a thoroughbred, but it had four legs.

One day he took his bargain to the Smiths to have him shod. The Smith regarded the weary-looking animal critically, paying particular attention to his lean back and spindly legs.

"You ought to have a horse there some day," he said at length. "I see you've got the scaffolding up."

A doctor was attending a pretty film star who had been ill for some time.

"You've got acute appendicitis," he announced.

The girl sat up indignantly. "I say, cut out the freshness," she said. "I want to be examined not admired."

ABOUT THREE YEARS

The first guided missile to the moon probably will crash into it about 1950. Arthur Clark, a former R.A.F. flight lieutenant now a student at London University, said. Lecturing the British Interplanetary Society on Spacecraft, Clark said fuel would be the main trouble and human beings who thought they might follow shortly after the first mechanical attempt were likely to be disappointed.

To Feel Right — Eat Right!

Get Double-Action
CONSTIPATION
Relief!

Don't let constipation get you down. Do this for effective, yet remarkably gentle relief. Simply take 2 to 4 tablets of Phillips' Milk of Magnesia with water. You'll wake up feeling on top of the world—refreshed and bright. In addition, Phillips' Milk of Magnesia is acknowledged by science as the fastest neutralizer of excess stomach acidity known. Thus you get double-action relief—from acid indigestion and sluggishness. Remember

Nation Of Vegetarians?

Figures Indicate Canadians Eating More Fruit And Vegetables

Are Canadians becoming a nation of vegetarians?

Figures would tend to indicate that they are certainly eating more fruit and vegetables than ever before.

In August of this year they ate 12 per cent. more fruit and vegetables than they did in August, 1945. Cumulative sales for the first eight months of the year were 20 per cent. over 1945.

Meat shortages no doubt have much to do with this trend but it is not improbable that once the habit of eating more of these foodstuffs is formed it will continue indefinitely.

Today the merchandising and services section of the Bureau of Statistics report that sales of fruits and vegetables in Canada increased 12 per cent. over August, 1945, with the western provinces showing the largest gain of 20.5 per cent.

Wholesalers of fruits and vegetables in the Maritime provinces and Quebec reported an increase of 2.5 per cent., while those in Ontario had sales 7 per cent. higher than in August a year ago.

RECTOR SORENESS AND PILE TORTURE QUICKLY RELIEVED

If you are troubled with itching piles or rectal soreness, Hem-Rol will relieve the risk of letting this condition become chronic. Any itching or soreness or painful passage of stool is nature's warning and protest should be removed at once.

For this purpose get a package of Hem-Rol from one of our dealers or use as directed. This formula which is used internally is a small, easy to take tablet which relieves the itching and soreness and aid in healing the new tender tissue. Hem-Rol is pleasant to the taste and does not cause any loss of sleep. It is the best of all remedies for this condition and is the only one which is safe and effective.

Place with the results, your druggist will gladly return your money.

Parcels For Britain

Limited Weight For Gifts And Food

To The Twenty Pounds

OTTAWA. The post office department announced the weight limit for gift and food parcels addressed to the United Kingdom has been lifted from the wartime restriction of 11 pounds to the normal maximum weight of 20 pounds.

Parcels also no longer are restricted to one a month and there will be no limit on the quantity of food in general or of any one foodstuff in particular which may be included in a gift parcel weighing up to the 20-pound limit.

The announcement said the parcels must be unadorned, boxes must not be imported into Britain as merchandise or for sale. Each parcel must be clearly marked with the word "Gift".

The concessions do not apply to parcels containing arms and ammunition, plumage, dangerous drugs or other articles subject to special regulations and restrictions. They also do not relieve goods from liability of any appropriate customs duty or purchase tax on arrival in Britain.

TEN-YEAR-OLD BOY LANDS LARGE TROUT

FORT WILLIAM. — One of the proudest boys in Canada is 10-year-old Vince Kennedy of Rosport, Ont., near Schreiber. He tugged from the waters of Lake Superior a lake trout which weighed the scales at 34 1/2 pounds. The fish was 40 inches long, with a girth of 20 1/2 inches.

Word of the boy's achievement was received here by Harvey Johnson, secretary of the Thousand Bay game and fish association, who has entered the trout in the association's annual competition.
